#### Temeljna literatura in viri/Readings:

##### Temeljna literatura/Basic literature

- Keohane, N. O. in Olmstead, S. M. (2016). Markets and the environment. Washington: Island Press (pogl. 1-4; 7-10).
- Brady, J., Ebbage, A. in Lunn, R. (2011). Environmental management in organizations: the IEMA Handbook. New York: Earthscan (pogl. 3.1, 3.2, 4.4, 4.5, 5.1, 5.4)

##### Priporočljiva literatura/Recommended literature

- Waters, B. (2013). Introduction to environmental management. New Work: Routledge.
- Erickson, K. H. (2016). Environmental economics. A simple introduction. New York: CreateSpace.

#### Cilji in kompetence:

*Učna enota prispeva predvsem k razvoju naslednjih splošnih in specifičnih kompetenc:*

- razvoj in uvajanje sodobnih okoljskih rešitev v poslovne sisteme,
- organiziranje, vodenje, razvijanje, načrtovanje in uvajanje sodobnih metodologij okoljskih raziskav v različne poslovne sisteme,
- poznavanje in razumevanje procesov v okolju ter usposobljenost za njihovo analizo, sintezo in predvidevanje rešitev oz. posledic,
- usposobljenost za prepoznavanje potreb po spremembah in uvajanje inovacij v okolju,
- avtonomnost in odgovornost pri pripravi rešitev, obravnavi predlogov in odločanju,
- zavezanost profesionalni etiki,
- poglobljeno poznavanje in razumevanje organizacij in procesov v sodobnem poslovнем okolju,

#### Objectives and competences:

*The learning unit mainly contributes to the development of the following general and specific competences:*

- developing and implementing advanced environmental solutions into business systems,
- organizing, managing, developing, planning and implementing modern environmental research methods into various business systems,
- knowledge and understanding of environmental processes and ability to analyse, synthesize and predict solutions or consequences,
- the ability to identify the need for change and introduce innovations in the environment,
- autonomy and responsibility in finding solutions, weighing proposals and making decisions,
- commitment to professional ethics,

**Predvideni študijski rezultati:**

**Študent/študentka:**

- razume osnovni ekonomski okvir za razmišljanje o okoljskih temah,
- pozna delovanje trgov za okoljsko zaščito,
- se usposobi za upravljanje in merjenje okoljske uspešnosti organizacij,
- se usposobi za uporabo okoljskih strategij v organizaciji.

**Intended learning outcomes:**

**Students:**

- understand the basic economic framework for thinking about environmental issues,
- are familiar with how environmental protection markets work,
- are trained to manage and measure the environmental performance of organizations,
- are trained to apply environmental strategies in the organisation.

**Metode poučevanja in učenja:**

- *predavanja* z aktivno udeležbo študentov (razлага, diskusija, vprašanja, primeri, reševanje problemov),
- *seminarske vaje*: priprava, predstavitev in uspešen zagovor raziskovalne naloge, reševanje problemov, študije primera, kritično presojanje, diskusija, refleksija izkušenj, vrednotenje, projektno delo, timsko delo).

**Learning and teaching methods:**

- *lectures* with active student participation (explanation, discussion, questions, examples, problem solving),
- *seminar tutorial*: preparation, presentation and successful defence of a research paper, problem solving, case studies, methods of critical thinking, discussion, reflection of experience, evaluation, project work, team work).

**Načini ocenjevanja:**

Delež (v %)

Weight (in %)

Assessment:

- Načini:
- izpit
  - izdelava, predstavitev in zagovor raziskovalne naloge

60 %

40 %

Types:

- examination
- preparation, presentation and defence of the research paper

Ocenjevalna lestvica: ECTS.

Grading scheme: ECTS.
