### Cilji in kompetence:

*Učna enota prispeva predvsem k razvoju naslednjih splošnih in specifičnih kompetenc:*

- poznavanje in razumevanje procesov v poslovnem okolju;
- razvijanje celovitega kritičnega razmišljanja (sposobnosti predvidevanja, analize, sinteze in vrednotenja);
- obvladovanje raziskovalnih metod, postopkov, procesov in tehnologije;
- razvijanje sposobnosti za kreativno uporabo znanja v poslovnem okolju;
- poznavanje in razumevanje teorije ekonomske politike;
- poznavanje nosilcev ekonomske politike, kot so: vlada, centralna banka, parlament, mednarodne organizacije, interesne skupine itd. in usposabljanje za preučevanje njihovega ravnanja ter posledic ravnanja (postavljanje ekonomskih ciljev, ukrepanje, koordinacija ukrepov, razreševanje ekonomskih konfliktov);
- seznanjanje z metodološkimi in vsebinskimi razhajnji v sodobni ekonomski teoriji (heterodoksne ekonomske teorije, njihova kritika ortodoksnih smeri v okviru neoklasične sinteze);

### Objectives and competences:

*The learning unit mainly contributes to the development of the following general and specific competences:*

- knowledge and understanding of processes in the business environment;
- developing comprehensive critical thinking (the ability of prediction, analysis, synthesis and evaluation);
- mastering research methods, procedures, processes and technology;
- developing skills for creative use of knowledge in the business environment;
- knowledge and understanding of the economic policy theory;
- knowledge of economic policy makers, such as: government, central bank, parliament, international organizations, stakeholders, etc. and being qualified to study their behaviour and the consequences of behaviour (setting economic goals, acting, coordinating actions, resolving economic conflicts);
- getting to know the methodological and content divergences in contemporary economic theory (heterodox economic theories, their critique of orthodox directions within neoclassical synthesis);
- knowledge and understanding of the
