Date: February 1, 2018
Subject: International Economics Olympiad

Dear Colleagues,

In September 2018, the first International Economics Olympiad (IEO) for high school students will take place. We would like to invite Slovenian team to participate.

The IEO project aims to encourage interest in economics, finance and business among high school students around the world, to discover and challenge most talented future economists and to facilitate the exchange of ideas regarding economics education in high school through the network of researchers, teachers and experts.

Currently there are international Olympiads in numerous subjects. All of them are prestigious competitions through which leading world experts and institutions join their efforts to promote their fields and improve secondary education in different countries. Slovenian teams participated in many of them, and we hope Economics will join this set of subjects.

You can choose any means of selecting participants for the team.

The 2018 IEO will take place in Moscow (Russia) in National Research University Higher School of Economics (HSE, <https://www.hse.ru/en>). After that, our partners around the world will organize IEOs annually. HSE is one of the leading Russian universities. According to QS World University Rankings by subject, HSE is ranked 51–100 in the World and 1st in Russia in Economics & Econometrics.

Please note that participation in IEO for an individual contestant will be free of charge. The host country will take care for accommodation; the only thing that the delegation will have to pay is travel expenses to Moscow.

It is an honor and privilege to invite your country to become one of the members of the first IEO. We hope that Slovenia will contribute to building a strong
